**Introduction**

HRIS can determine at any time if a person is a current or former Employee of the State of Arizona by performing a search on the Social Security Number Lookup Form (ZH11.1).

This form makes a determination by comparing the social security number (SSN) keyed in on this form against all SSNs in the database. If a match is found, then the person is a current or former Employee and must be treated differently during the hiring process.

When using this form during the hiring process, if the SSN is not found, then the person needs to be hired following the Hire Process. If the SSN is found, the person needs to be hired following the Rehire Process or the Interagency Transfer Process.

This form can be used at any time to check a social security number against the database.

If an SSN number is found, the following information will be displayed:

- First and Last Name
- Employee’s EIN
- Last Process Level
- Last Employee Status

• Type XP52.1 for the New Hire with Talent  
• Type XP52.1 for the Rehire Process. | HRIS Form Appears | Continue with the New Hire or Rehire Process as outlined in those training manuals. |

**Example 1** - If you receive this message, continue with New Hire Process.

⚠️ Warning-Social Nbr is invalid; OK to continue
Example 2 - If you see the applicant information, then the applicant is already in HRIS. If the applicant has a terminated status, you need to complete the Rehire Process, which may also require an Interagency Transfer to be completed.

Example 3 - If you receive this message, the Social Security Number is in the wrong format or is an invalid Social Security Number. Check to ensure the number was keyed correctly. If it was, then contact the applicant to get the valid Social Security Number.
